Paso 2: Configurar

- 2 In the "Options" window, on the **Accounts** pane, click the **Sign In** button next to "GitHub.com".

Paso 2: Configurar

- 3 In the "Sign in Using Your Browser" modal window, click **Continue With Browser**. GitHub Desktop will open your default browser.

Warning: Authenticating to GitHub using your username and password is not supported. We require authenticating using the browser instead.

- 4 To authenticate to GitHub, in the browser, type your GitHub.com credentials and click **Sign in**.

Alternatively, if you were already signed in to GitHub, follow the prompts to return to GitHub Desktop to finish authenticating.

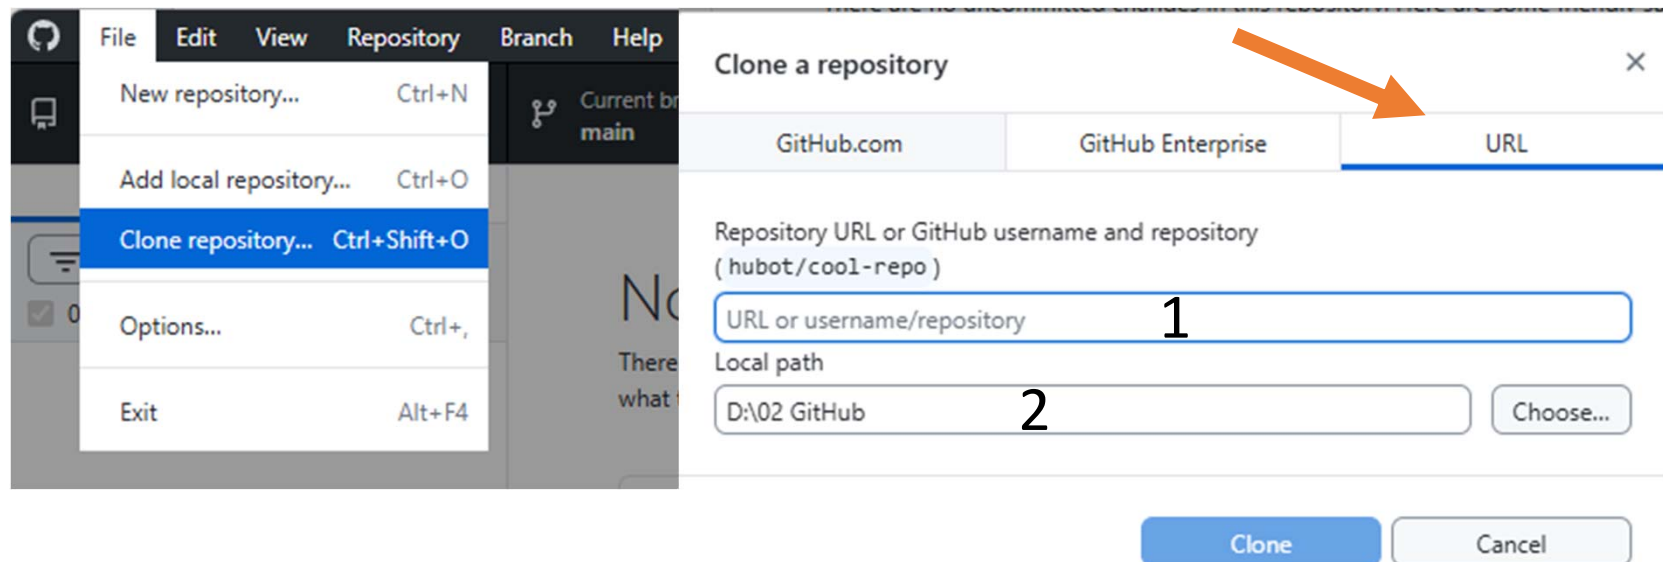

- 5 If you have configured two-factor authentication (2FA) for GitHub, do one of the following:

- If you set up 2FA via SMS, retrieve your 2FA code from an SMS message.
- If you set up 2FA with a TOTP application, generate a 2FA code.

Then enter your 2FA code in the prompt on GitHub and click **Verify**.

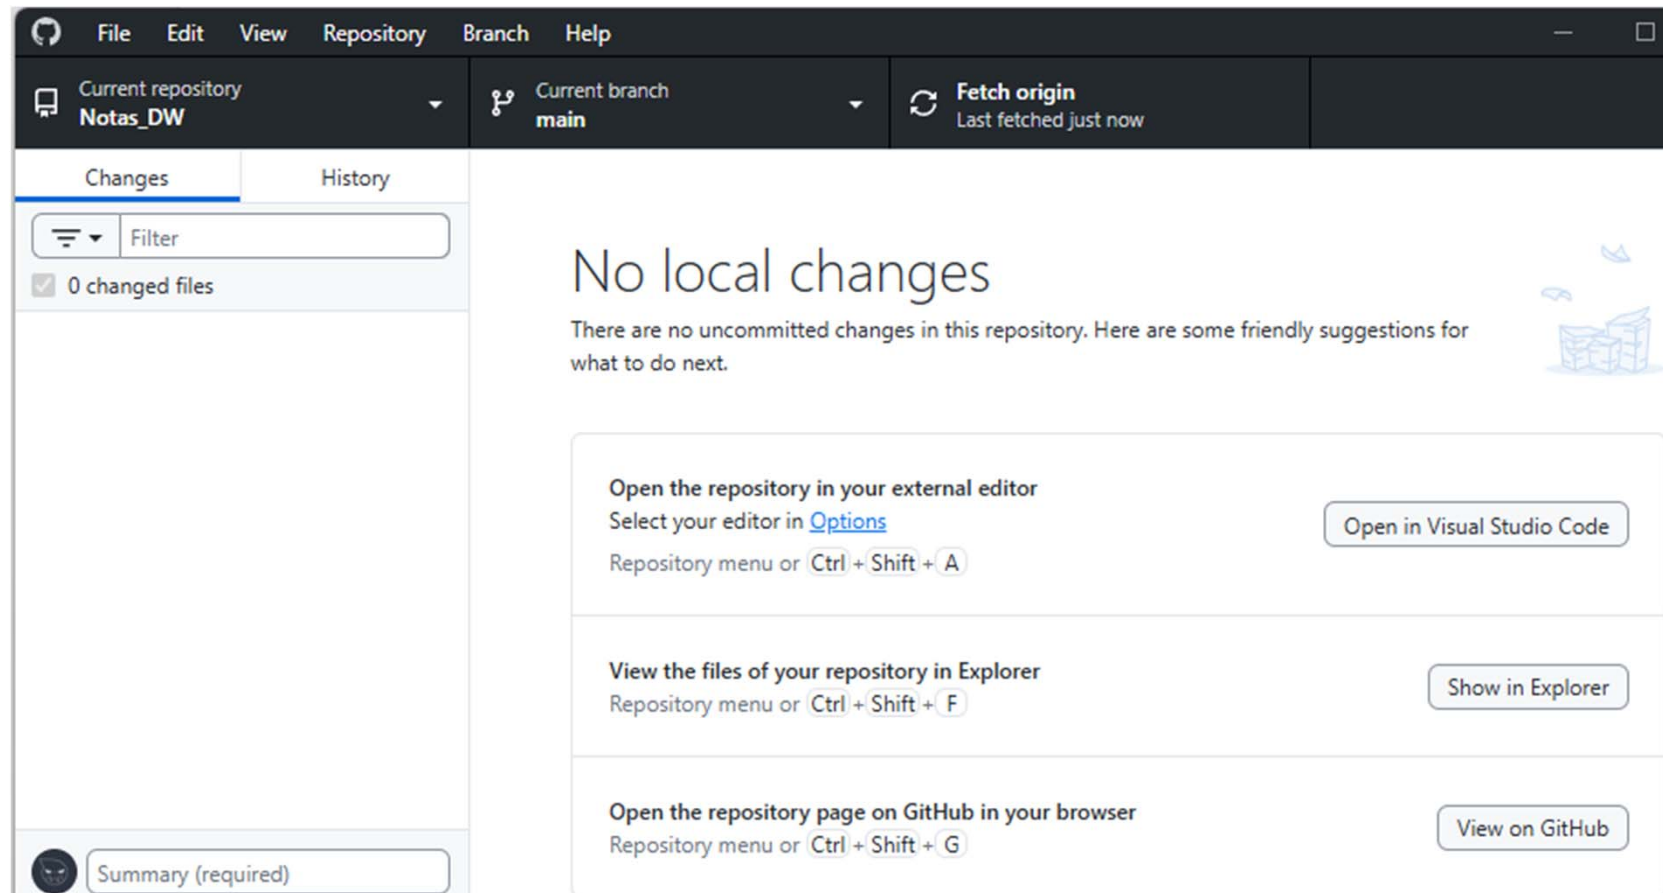

- 6 After GitHub authenticates your account, follow the prompts to return to GitHub Desktop.

The screenshot shows the Visual Studio Code editor interface. The Explorer panel on the left displays the file structure of the 'KRALOS-7.GITHUB.IO' repository, including folders for 'css', 'images', and 'js', and a file named 'index.html'. The main editor area shows the content of 'index.html', which is an HTML document. The code includes a DOCTYPE declaration, language attribute, and a head section with various meta tags for charset, author, description, keywords, and viewport. It also includes comments for metadata and title, and links to a favicon, Bootstrap CSS, Bootstrap icons, and a local CSS file. The title tag is currently set to 'My Profile v. 2025'.

Cambios: Repositorio Propio

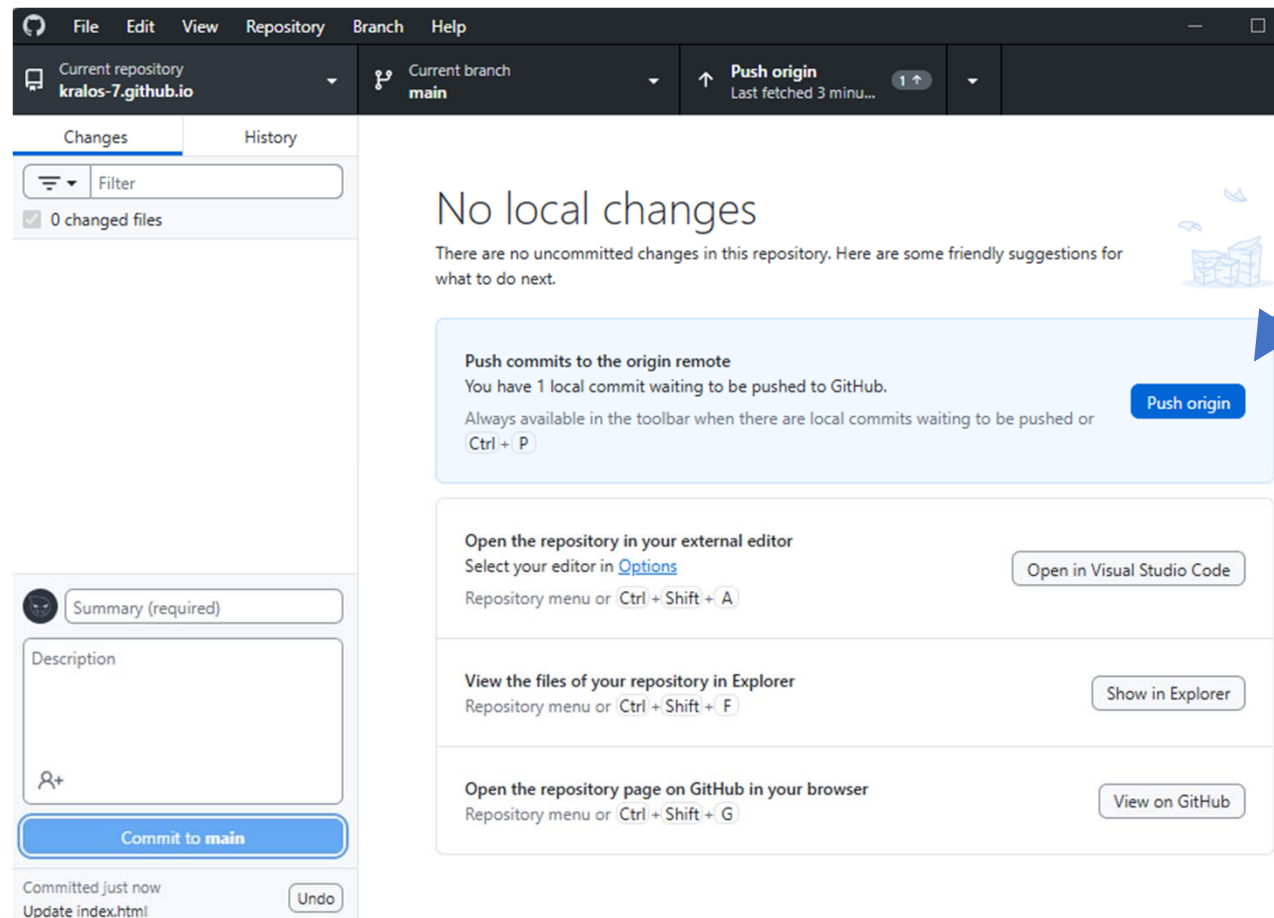

The screenshot shows a code editor interface with a dark theme. The top bar includes a menu (File, Edit, View, Repository, Branch, Help) and a status bar. The status bar shows the current repository is 'kralos-7.github.io', the current branch is 'main', and the origin has been fetched just now. The left sidebar shows a list of changes, with 'index.html' selected. The main area displays a diff for 'index.html'. The diff shows a change to the title tag, adding 'v. 2025' to 'My Profile'.
